STAY SAFE ONLINE

ANTIVIRUS AND NETWORK PROTECTION

Keep your devices safe from viruses, trojans, ransomware, adware, keyloggers, spyware, and other malware, and make sure that your Internet connection is safe.

FIND YOUR PHONE

Are you worried about losing your phone? You can locate your lost Android or iOS phone with Finder. You can also lock or erase your data from your Android phone remotely.

BROWSING AND BANKING PROTECTION

Explore the Internet, and handle your online shopping and banking without worries.

FAMILY PROTECTION

Children spend a lot of time online. Protect your kids' safety online by setting limits for their screen time and blocking harmful content.

PROTECT YOUR PRIVACY

COMPLETE PRIVACY

VPN creates a secure and private tunnel between you and the rest of the Internet. No-one can monitor you or spy on what you do online.

ACCESS BLOCKED CONTENT

Choose from over 25 virtual locations to easily watch and access content that is not available in your own country.

WI-FI SECURITY

Your Internet connection is secured so that no one can hack it, even when you use public Wi-Fi.

STOP UNWANTED TRACKING

Stop advertisers from making money at the expense of your privacy
