

SAFETY DATA SHEET

[in accordance with the criteria of regulation no 1907/2006 (REACH) and 453/2010]

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Wet wipes for screen cleaning: RE00093, RE00457

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: for cleaning screens of electronic devices

Uses advised against: not determined.

1.3 Details of the supplier of the safety data sheet

Manufacturer: **E5 Polska Sp. z o. o.**

Address: ul. Wąwozowa 11, 02-796 Warszawa, Poland

Telephone/Fax number: +48 22 228 20 90, +48 22 649 17 33, +48 608 526 744

E-mail address for a competent person responsible for SDS: jj@e5.pl

1.4 Emergency telephone number

112

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Directive 1999/45/EC

The product is not classified as dangerous for human life and health and for the environment.

Classification according to Regulation (EC) No. 1272/2008

The product is not classified as posing a risk for human life and health and for the environment.

2.2 Label elements

Hazard symbols

None.

Substance name for labeling

None.

Risk phrases

None.

Safety phrases

None.

Additional information

Composition in accordance with the Regulation (EC) on detergents N° 648/2004: anionic surfactants (< 5%), preservatives (methylchlorisothiazolinone, methylisothiazolinone, 2-bromo-2-nitropropane-1,3-diol).

2.3 Other hazards

There is no information whether the substance or mixture meets criteria for PBT or vPvB in accordance with Annex XIII of Regulation REACH.

Section 3: Composition/information on ingredients

SAFETY DATA SHEET

3.1 Substances

Not applicable.

SAFETY DATA SHEET

3.2 Mixtures

1-methoxy-2-propanol

Concentration: 5-10%
CAS number: 107-98-2
EC number: 203-539-1
Registration number: 01-211945743-35-XXXX
Classification acc. to 67/548/EC: R10, R67
Classification acc. to 1272/2008/EC: Flam. Liq. 3 H226, STOT SE 3 H336
Substance with occupational exposure limits defined on the Community level.
Full text of each relevant R and H phrases is given in section 16 of SDS.

Section 4: First aid measures

4.1 Description of first aid measures

Skin contact: consult a doctor if disturbing symptoms appear. Wash the contaminated skin with plenty of water with soap.

Eye contact: consult a doctor if disturbing symptoms appear. Protect the non-irritated eye, remove contact lenses. Wash the contaminated eye with plenty of water for 5-10 minutes. Avoid powerful water stream – risk of cornea damage.

Ingestion: exposure by this route does not occur.

Inhalation: remove to fresh air, keep the victim warm and calm. Consult a doctor if disturbing symptoms appear.

4.2 Most important symptoms and effects, both acute and delayed

There are no reports concerning the effects or critical threats if the product is properly used.

4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured.

Section 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: adjust fire fighting measures to the surrounding materials.

Unsuitable extinguishing media: water jet – risk of the propagation of the flame.

5.2 Special hazards arising from the substance or mixture

During the fire, the product may produce hazardous fumes containing carbon monoxides. Do not inhale combustion products, they can be dangerous for human health.

5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. Avoid skin and eye contamination.

6.2 Environmental precautions

In case of large spills, prevent the substance from spreading into the environment. Notify relevant emergency services.

SAFETY DATA SHEET

6.3 Methods and material for containment and cleaning up

Collect mechanically. Collected material treat as waste. Clean the contaminated area.

SAFETY DATA SHEET

6.4 Reference to other sections

Appropriate conduct with waste product – see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Avoid skin and eye contamination. Before break and after work wash hands carefully. Use conforming to its intended purpose.

7.2 Conditions for safe storage, including any incompatibilities

Keep only in original, tightly closed containers. Keep away from food, beverages or animal feed. Avoid direct sunlight. Keep away from fire.

7.3 Specific end use(s)

There is no information about other uses than those mentioned in section 1.2.

Section 8: Exposure controls/personal protection

8.1 Control parameters

Values for Germany:

Specification	MAK	Short-term exposure limit (STEL)	TRGS 900 (Treshold limit value)	TRGS 903 (Biological limit values)
1-methoxy-2-propanol [107-98-2]	360 mg/m ³	720 mg/m ³	370 mg/m ³	15 mg/l*

*Sample material: urine, Parameter: 1-Methoxypropan-2-ol

German law: MAK value from 2013.

8.2. Exposure controls

Handle in accordance with good occupational hygiene and safety practices. Do not eat, drink and smoke during the work. Before break and after work wash hands carefully. Avoid contact with skin and eyes.

Hand and body protection

Not required.

The material that the gloves are made of must be impenetrable and resistant to the product's effects. The selection of material must be performed with consideration of breakthrough time, penetration speed and degradation. Moreover, the selection of proper gloves depends not only on the material, but also on other quality features and changes depending on the manufacturer. The producer should provide detailed information regarding the exact breakthrough time. This information should be followed.

Eye/face protection

Not required.

Respiratory protection

In case of an adequate ventilation it is not required.

Personal protective equipment must meet requirements of directive 89/686/CE. Employer is obliged to ensure equipment adequate to activities carried out, with quality demands, cleaning and maintenance.

Relevant procedures for monitoring of dangerous components concentration in the air and procedures for air pureness control at workplace must be applied – if they are available and justified for the workstation in question – in compliance with relevant Standards, considering the conditions in the exposure area and suitable measurement methodology tailored to the working conditions.

Environmental exposure controls

Do not allow the large quantity of mixture to contaminate ground water, wastewater, canalization or

SAFETY DATA SHEET

soil.

SAFETY DATA SHEET

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

physical state:	solid/ wipes soaked with cleaning solution
colour:	white
odour:	characteristic, pleasant
odour threshold:	not determined
pH:	not determined
melting point/freezing point:	not determined
initial boiling point and boiling range:	not determined
flash point:	not applicable
evaporation rate:	not determined
flammability (solid, gas):	non-flammable
upper/lower flammability or explosive limits:	not applicable
vapour pressure:	not determined
vapour density:	not determined
density:	not determined
solubility(ies):	do not dissolve in water
partition coefficient: n-octanol/water:	not determined
auto-ignition temperature:	product is not auto-igniting
decomposition temperature:	not determined
explosive properties:	do not display
oxidising properties:	do not display
viscosity:	not determined

9.2 Other information

There are no additional test results.

Section 10: Stability and reactivity

10.1 Reactivity

Product does not undergo a dangerous polymerization. See also section 10.3-10.5

10.2 Chemical stability

The product is stable under normal conditions.

10.3 Possibility of hazardous reactions

Not known.

10.4 Conditions to avoid

Avoid heat sources and direct sunlight.

10.5 Incompatible materials

Strong oxidants.

10.6 Hazardous decomposition products

Not known.

Section 11: Toxicological information

11.1 Information on toxicological effects

Information regarding acute and/or delayed results of the exposure was defined on the basis of the information on product's classification and/or toxicological studies as well as the experience and knowledge of the manufacturer.

SAFETY DATA SHEET

acute toxicity

Based on available data, the classification criteria are not met.

SAFETY DATA SHEET

skin corrosion/ irritation

Based on available data, the classification criteria are not met.

serious eye damage/irritation

Based on available data, the classification criteria are not met.

respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

repeated dose toxicity

Based on available data, the classification criteria are not met.

germ cell mutagenicity

Based on available data, the classification criteria are not met.

carcinogenicity

Based on available data, the classification criteria are not met.

reproductive toxicity

Based on available data, the classification criteria are not met.

STOT- single exposure

Based on available data, the classification criteria are not met.

STOT- repeated exposure

Based on available data, the classification criteria are not met.

aspiration hazard

Based on available data, the classification criteria are not met.

Section 12: Ecological information

12.1 Toxicity

The product is not classified as dangerous for environment.

12.2 Persistence and degradability

Not determined.

12.3 Bioaccumulative potential

Not expected to bioaccumulate.

12.4 Mobility in soil

Product is not mobile in soil.

12.5 Results of PBT and vPvB assessment

Not applicable.

12.6 Other adverse effects

Product does not have any influence on global warming and destruction of the ozone layer.

Section 13: Disposal considerations

13.1 Waste treatment methods

Disposal methods for the product: reuse in accordance with the legislation in force. Store residues in original containers. Waste code should be given in the manufacturing place.

Disposal methods for used packing: reuse/recycle/liquidate empty containers in accordance with the legislation in force. Only containers completely empty can be reused.

Legal basis: Directive 2008/98/EC, 94/62/EC.

SAFETY DATA SHEET

SAFETY DATA SHEET

Section 14: Transport information

14.1 UN number

Not applicable.

14.2 UN proper shipping name

Not applicable.

14.3 Transport hazard class(es)

Not applicable.

14.4 Packing group

Not applicable.

14.5 Environmental hazards

Not applicable.

14.6 Special precautions for user

There are no special precautions..

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).

Council Directive 67/548/EEC of 27 June 1967 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging and labeling of dangerous substances.

Directive 1999/45/EC of the European Parliament and of the Council of 31 May 1999 concerning the approximation of the laws, regulations and administrative provisions of the Member States relating to the classification, packaging and labelling of dangerous preparations.

Commission Regulation (EC) No 790/2009 of 10 August 2009 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures (Text with EEA relevance).

Commission Regulation (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (Text with EEA relevance).

2008/98/EC of the European Parliament and of the Council of 19. November 2008 on waste.

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste.

15.2 Chemical safety assessment

None.

Section 16: Other information

Full text of indicated R and H phrases mentioned in section 3

R10

Flammable.

R67

Vapours may cause drowsiness and dizziness.

SAFETY DATA SHEET

H226 Flammable liquid and vapour.
H336 May cause drowsiness or dizziness.

SAFETY DATA SHEET

Clarification of aberrations and acronyms

PBT	Persistent, Bioaccumulative and Toxic Substances
vPvB	very Persistent and very Bioaccumulative Substances
Flam. Liq. 3	Flammable Liquid cat. 3
STOT SE 3	Specific target organ toxicity — single exposure cat. 3

Trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

Other data

Date of issue: 08.07.2013.
Version: 1.0/EN

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.
